

# THINK BEFORE YOU SPRAY

## THINK BEFORE YOU SPRAY

The “*Think Before You Spray*” campaign is a collaborative, community-driven project in Marin County to raise awareness among Marin residents about alternatives to the use of toxic landscape products – around people’s homes and businesses – and to reduce the overall use of pesticides.

## TAKE THE SURVEY

A group of local community members, in collaboration with the County of Marin and the San Francisco Estuary Partnership, is coordinating this survey in order to understand more about Marin residents’ gardening/yard care practices and product use. Your input is important and will inform our work. Thank you.

---

*Did you know that pesticides can be toxic to nearby waterways even when applied according to label directions?*
